

LEAGUE OF LEGENDS Bot

twitter.com/COEN291_Bot

github.com/S-hil/twitter_bot

How Bot was Made

Make Dataset for each character → Markovify → Bot

Let's Meet Our Champions

“I'd rather break rules than people, but here we are.” - Rell

“Trust is a luxury no one gets out.”

“You know I can always count on iron.”

A full-page illustration of the League of Legends character Lux. She is a blonde woman with long, flowing hair, wearing a blue and white mage's outfit with gold accents. She is standing in a lush green forest, looking upwards with a determined expression. Her right hand is raised, casting a bright, glowing spell that creates a large, radiant light effect in the sky. The background is filled with trees and foliage, with a soft, golden light filtering through the leaves. The overall mood is magical and heroic.

“Curiosity's going to meet you.” - Lux

“I'll melt away your concern.”

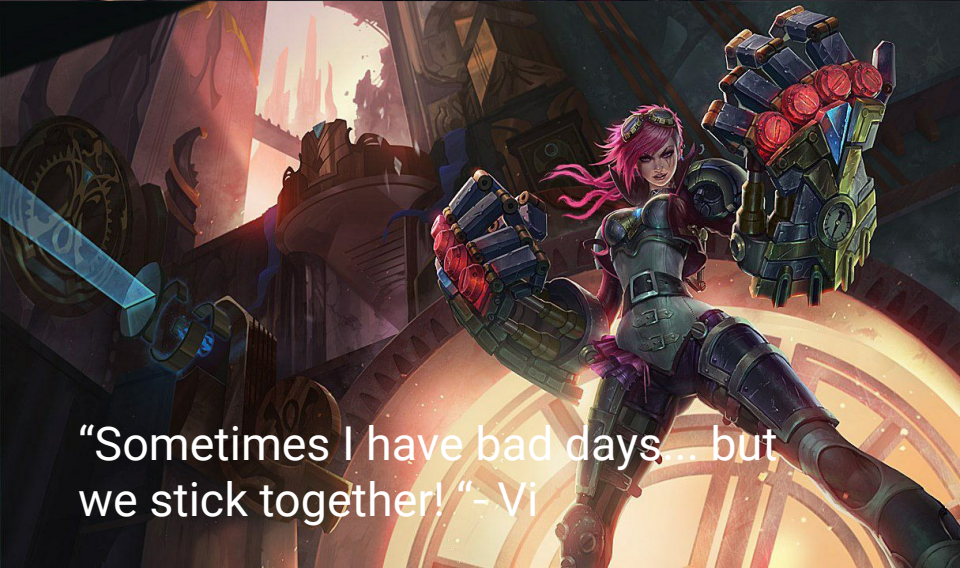

“Well, a double rainbow is shining, we should too!”

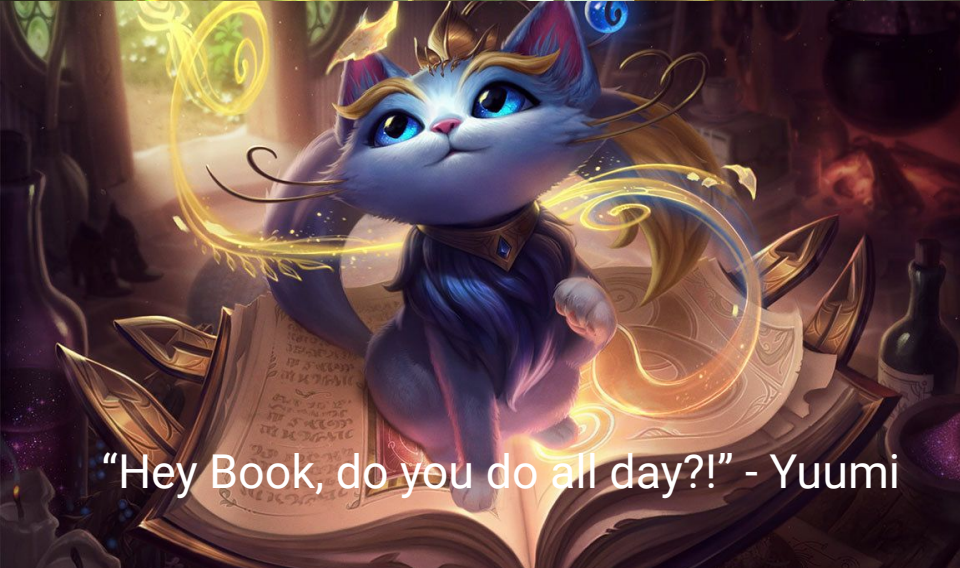

"Not sure you can't keep up
don't like a queen" - Samira

"My blade is an eternal student." -
Master Yi

"Sometimes I have bad days... but
we stick together!" - Vi

"Hey Book, do you do all day?!" - Yuumi

DEMO!

Let's meet them

▲ `Client.media_upload` does not exist because Twitter API v2 does not have an endpoint for uploading media yet. This [is on the Twitter Developer Platform Roadmap](#).

3
▼ For now, you'll have to apply for Elevated access to use Twitter API v1.1 to upload media.

Twitter API didn't let me upload images.
So, I could not do Image styling project as originally planned.

Things Done

```
1 import markovify
2
3 with open("positive.txt") as f:
4     text = f.read()
5
6 text_model = markovify.Text(text, state_size=5)
7
8 for i in range(8):
9     print(text_model.make_short_sentence(250))
```

executed in 2.12s, finished 00:36:29 2022-01-30

They are lovely, hyper kittens in need of a new home as the owner will be migrating soon.
I'm looking for someone to give them a good home.
She's about 1.5 months and ready to go to a new loving forever home.
Please contact me at if you wish to adopt 2 female kittens together.
Describe the environment you are willing to provide a forever loving home for her..
We are looking for serious owners and will deeply appreciate anyone who is willing to adopt our 3 years old cat?
She's very tame, friendly and love to play and jumping around!
I sincerely hope that those who are caring enough will contact me if you are interested Lovely puppy looking for a fo
rever home.

Made A Dataset from [Petfinder.my](#) and separated
it into positive and negative sentences.
Results were not as expected so abandoned.

Things Done

Tried quotes from Anime characters.
Abandoned because of lack of cohesiveness with
the project..

Things Done

```
1 import markovify
2
3 text_model = markovify.Text(quotes,state_size=2)
4
5 for i in range(8):
6     print(text_model.make_short_sentence(250))
```

executed in 428ms, finished 13:19:40 2022-01-30
